### **Reno Sportsdome partners with Swift Orthopedic Urgent Clinic**

RENO, Nev. (Jan. 28, 2021)– Construction has resumed on the new Swift Sportsdome, located at South Meadows in south Reno. The much-anticipated Reno Sportsdome has partnered with Swift Urgent Clinic and Spine Nevada Minimally Invasive Spine Institute and will be re-named Swift Sportsdome. This will include the existing University location and the soon-to-be-constructed South Meadows location. Despite the delay due to the pandemic, the 120,000 square-foot indoor facility will be opening this year to the delight of many sports participants throughout northern Nevada.

The partnership with Swift Urgent Clinic and Spine Nevada will make the Swift Sportsdome one of the most forward-thinking indoor sports complexes in the country. In addition to offering both turf and court space for many different sports, Swift Sportsdome will incorporate on-site physical therapy, medical evaluations, on-site medical staff, sports science training, concussion screening, and much more through this partnership with Reno's top orthopedic and spine care specialists.

"We are extremely excited to be partnering with Swift. This partnership creates a tremendous amount of added value for our members to go along with the same quality experience players have come to expect from the Sportsdome," said Owen Blake, owner of the Swift Sportsdome.

The new Swift Sportsdome will be the second facility under the Sportsdome brand, accommodate over three times the existing university location's capacity, and offer a wider variety of sports and game-viewing opportunities. The facility will include a large bar and lounge area with an expanded menu for visitors to enjoy. Also, there will be over 5,000 sq ft of physical therapy and sports science training space located inside the new facility.

"This is one of the most exciting developments going on in northern Nevada," said James Lynch, MD, President of Spine Nevada and Swift Urgent Clinic. "We've provided the region quality spine and orthopedic care for years and share the same vision of quality and community as the Reno Sportsdome team. We look forward to the partnership and bringing northern Nevada a truly unique, cutting-edge sports and healthcare experience."

The original Reno Sportsdome will be re-named Swift Sportsdome University. It remains open and will continue to operate after Swift Sportsdome South Meadows' grand opening in the fall of 2021. Registration will open in March for the new Swift Sportsdome South Meadows leagues and programs. To secure a spot at the new location, individuals are encouraged to visit [Swiftsportsdome.com](http://Swiftsportsdome.com) and sign up to receive updates on registration for the new facility.

### **About Reno Sportsdome**

*Reno Sportsdome ([renosportsdome.com](http://renosportsdome.com)) is a state-of-the-art indoor sports facility with locations in north and south Reno. It provides year-round multi-sport indoor leagues for young*

*kids, adolescents, and adults. The Reno Sportsdome was created to bring a new level of indoor sports to northern Nevada. These family-friendly establishments offer adults and youth a great place to be involved in a positive sports environment. The health and safety of our community is our top priority. Early on, the Sportsdome implemented extensive safety measures and cleaning protocols following government guidelines. The Sportsdome continues to work diligently to enhance the dome experience to provide members a positive sports environment to stay active throughout the pandemic.*

### **About Swift Urgent Clinic**

*Swift Urgent Clinic provides specialized health care for orthopedic, bone, joint, and spine conditions and sports injuries. Swift Urgent Clinic providers are experienced in treating orthopedic, sports, and spine injuries. In addition to specialized care, Swift patients have access to imaging, fracture care, injection therapy, and physical therapy - all under one roof. The Swift Physical Therapy program is skilled in treating a full spectrum of orthopedic, sports, neurological and spine injuries. If necessary, follow-up appointments are available with physicians board-certified in orthopedic surgery, physical medicine, radiology, and neurosurgery. With convenient clinics in Reno and Sparks, Swift offers the specialized care you need, when you need it.*

### **About Spine Nevada Minimally Invasive Spine Institute**

*Spine Nevada Minimally Invasive Spine Institute is a regional center of excellence, offering a comprehensive approach to spine and musculoskeletal care. The center includes fellowship-trained neurological surgeons, spine specialists board-certified in physical medicine and radiology, specialty-trained physical therapists, physical therapy clinics, and InMotion Diagnostics. These spine experts take a conservative first approach and combine their expertise to develop each patient's most appropriate treatment. Founded by Dr. James Lynch in 2004, Spine Nevada's goal is to be recognized as a regional center of excellence that demonstrates innovation in non-surgical and surgical spine care and then documents its superior care with clinical outcomes. The center's mission is to help its patients return to active lives through compassionate, evidence-based spine and MSK care, including non-surgical treatment options and the most technologically advanced minimally invasive surgical techniques.*
